Associates and joint ventures

Transactions between the Consolidated Entity and its associates and joint ventures principally arise from the provision of corporate advisory services, the granting of loans, derivative transactions and the provision of management services. All transactions undertaken with associates and joint ventures are eliminated where they are unrealised, to the extent of ownership interests held by the Consolidated Entity, in the consolidated income statement.

During the financial year, the following income/(expense) resulted from transactions with associates and joint ventures:

	Consolidated	Consolidated	Company	Company
	2011	2010	2011	2010
	\$m	\$m	\$m	\$m

¹ Fee and commission income includes all fees charged to associates.

² Gains on sale of securities are shown after elimination of unrealised profits or losses calculated by reference to the Consolidated Entity's ownership interest in the associate.

³ Dividends and distributions are shown as gross amounts. Under the equity method, these amounts are not taken up as income but are recorded as a reduction of the carrying amount of the investment.

The following balances with associates and joint ventures were outstanding as at financial year end (these exclude amounts which in substance form part of the Consolidated Entity's net investment in associates, disclosed in note 17 – Interests in associates and joint ventures accounted for using the equity method):

	Consolidated	Consolidated	Company	Company
